WORK EXPERIENCE

[09/06/2021 – Current]

Fullstack Developer

Kuvarssoft <https://www.kuvarssoft.com/>

City: Kütahya

Country: Turkey

Name of unit or department: Software Development

I started my working life with PHP, Javascript and now I continue as a professional frontend developer. The languages I use include Vue, Nuxt, Javascript and JQuery. I have actively worked as a front-end developer in projects involving deep algorithms such as accounting software. I have developed design-oriented projects and management panels such as the landing page.

Internship

Eren Bilgisayar

Address: Alipaşa, Kara Ahmet Sk. 11a, 43040, Kütahya, Turkey

RECOMMENDATIONS

Backend Developer

Name: Ebubekir Şakar

Phone number: (+90) 5439189856

He is the backend developer and owner of pitech soft, with whom we worked as partners in some projects, including the Memodram panel project.

DIGITAL SKILLS

Frontend Development

VUE | JAVASCRIPT | NUXT | WebSocket API | React | REST API | JQUERY

Design

Tailwind | Element Plus | Material UI | Bootstrap | HTML - CSS

Other

PHP | React Native | Git

PROJECTS

Web Based Accounting Application

The project in which I gained skills such as calculating e-invoices, keeping bookkeeping records, and stock recording. Written with Vue Js as frontend developer.

Link: <https://ishesap.com/>

Web Based Billing Application

It is a web-based project written with Vue Js

Link: <https://masahesap.com/>

Memodram Panel

I have created the admin page in this program, which was made for the purpose of patient follow-up in the field of health.

Fungi Turkey

It is the project that I work as a full stack, including Backend, Landing Page and Admin page

Link: <https://www.fungiturkey.org/>

Shift Tracking Application

I worked with React as a front developer in this program, which was written to track staff shifts, entry and exit times and locations.

No Code Backend Application

In this project, which is completely my own, I am preparing a panel for users to build a website without writing code.

Link: https://github.com/erdodo/no_code_backend

Customer Relationship Management Application

Basically, it is an unpublished project written for the purpose of improving myself. It has been developed as web-based.

Vue Projects

1. Simple Admin (<https://github.com/erdodo/simple-admin-v2>)
 - a. The admin page I designed for the backend program I wrote.
2. İş Hesap Docs Page (<https://ishesap.com/docs/>)
3. One Shot App(<https://one-shot-erdodo.vercel.app/>)
 - a. There is no active backend connection

React Native Projects

1. E-commerce App (<https://github.com/erdodo2/react-native-ecommerce-app>)
2. News App (<https://github.com/erdodo2/react-native-news-app>)
3. Weather App (<https://github.com/erdodo2/react-native-weather-app>)

React Projects

1. News App (<https://github.com/erdodo2/react-news-app>)
2. Weather App (<https://github.com/erdodo2/react-weather-app>)

LANGUAGE SKILLS

Mother tongue(s): Turkish

Other language(s):

İngilizce

LISTENING A2 **READING** A2 **WRITING** A2

SPOKEN PRODUCTION A1 **SPOKEN INTERACTION** A1

HOBBIES AND INTERESTS

Electronic Programming - Arduino

I do basic electronic programming, arduino projects and apple home kit integrations.
